

**THE OFFICE OF ACADEMIC, RESEARCH, INNOVATION
AND STRATEGIC PARTNERSHIPS (ARISP)
AFE BABALOLA UNIVERSITY, ADO EKITI**

RESEARCH AND GRANT OPPORTUNITY

January 2021

In order to promote funded research and active international collaboration by all researchers at Afe Babalola University, Ado Ekiti (ABUAD), The Office of Academic, Research, Innovation and Strategic Partnerships (ARISP) provides this monthly compilation of external funding opportunities including grants, fellowships, awards and prizes.

Grants – Health and Life Sciences

FRIEDREICH'S ATAXIA RESEARCH ALLIANCE (FARA)

[General Research Grant](#)

The grant is open to qualified investigators proposing projects that fall within FARA Research Priorities, such as: advancing understanding of neuroscience/systems cardiac disease in FA; advanced drug discovery; facilitating the drug development process and translational research; advancing clinical research.

Deadline: Letter of Intent by 1 February, 15 July 2021

FRIEDREICH'S ATAXIA RESEARCH ALLIANCE (FARA)

[Postdoctoral Research Award](#)

FARA offers a Postdoctoral Research Award as a mechanism to expand and retain young investigators in the FA biomedical research space. For this application type, the postdoctoral trainee is the PI of the grant proposal. Postdoctoral trainees should focus their research proposal on projects that fall within FARA Research Priorities.

Deadline: Letter of Intent by 1 February, 15 July 2021

CACNA1A FOUNDATION

[CACNA1A Foundation Research Grant Program](#)

Funding is available for basic, pre-clinical, translational, and clinical research projects that investigate all aspects of CACNA1A, a rare genetic disease on the 19th chromosome.

Deadline: 1 February 2021

SARCOMA FOUNDATION OF AMERICA

[Sarcoma Foundation Grants](#)

Research proposals should involve the development of novel agents against sarcoma, or research that could potentially lead to the development of novel agents against sarcoma. Applications should focus on the following areas of research:

Omic characterization of sarcomas and definition of novel targets; Omic patterns of sensitivity and resistance to existing agents; Systemic therapy combinations; Immunotherapy; Gene Therapy.

Deadline: 1 February 2021 (5:00 pm ET)

LEUKEMIA RESEARCH FOUNDATION

[LRF Hollis Brownstein Research Grants Program](#)

This program exclusively funds new investigators - individuals beginning to establish their own laboratories and who are no longer under the tutelage of a senior scientist mentor on the following topics: leukemia, lymphoma, multiple myeloma, and blood cancer research.

Deadline: Letters of Intent by 5 February 2021 (1:00 pm EST)

INTERNATIONAL WALDENSTROM'S MACROGLOBULINEMIA FOUNDATION (IWMMF)

[Strategic Research Road Map](#)

This call supports projects in four key domains of Waldenstrom's macroglobulinemia (WM) research: genomics and epigenomics; signaling; immunology/immunotherapy; bone marrow/tumor microenvironment. The goals are improving quality of life for WM patients, discovering new treatments, and ultimately, finding a cure.

Deadline: 10 Feb 2021 (3:00 pm ET)

LUPUS RESEARCH ALLIANCE (LRA)

[Lupus Innovation Award](#)

This award provides support for pioneering, high-risk, high-reward approaches to major challenges in lupus research. Special emphasis is placed on lupus studies exploring fundamental mechanisms, novel targets and pathways, novel technologies, and interdisciplinary approaches.

Deadline: Letter of Intent by 16 February 2021

KAY KENDALL LEUKAEMIA FUND (KKLF)

[Project Grants](#)

Grants will be awarded for research on aspects of leukaemia and for relevant studies on related haematological malignancies. Requests for support for basic science programs may be considered. Clinical trials will not be supported.

Proposals which are closely related to the prevention, diagnosis, or therapy of leukaemia and related diseases are particularly encouraged.

Deadline: 28 February 2021

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Research Grants Program](#)

The emphasis is on original work that focuses on improving existing analytical methods for detecting certain drugs, developing new analytical methods to test for substances not currently detectable, and discovering cost-effective approaches for testing widely abused substances across all levels of sport.

Deadline: Pre-Applications by 1 March and 1 July 2021

LEO FOUNDATION

[Open Competition Grants](#)

These grants are given to support the best dermatology research projects worldwide. Focus will be on projects that: i) improve the understanding of the underlying medicinal, biological, chemical, or pharmacological mechanisms of dermatological diseases and their symptoms; ii) address clinical issues among people who are at risk of developing, or who have developed a skin disease, including how it impacts their quality of life and the societal costs involved.

Deadline: 5 March, 30 June, 7 Sept 2021

RESMED FOUNDATION

[Clinical Research Proposals](#)

Resmed promotes novel research as well as public and physician awareness of sleep disordered breathing (SDB), with a primary focus on positive airway pressure therapies and ventilation-based treatments. Special interest will be on the evaluation, diagnosis, treatment, and management of SDB and other respiratory disorders. Research areas of interest are also other morbidities that are associated with SDB which include cardiovascular disease, metabolic syndrome, diabetes, and morbid obesity.

Deadline: 15 March 2021

CHORDOMA FOUNDATION

[Drug Screening Program](#)

The Foundation provides in-kind drug screening through our Drug Screening Program, testing selected drugs in a panel of well-characterized chordoma xenograft models. In addition to this *in vivo* testing service, the Foundation is offering a new *in vitro* drug screening service to rapidly assess new drugs and combination approaches. Nominated drugs can be tested for their effects on chordoma cell viability in a number of validated cell lines in a rapid and efficient manner through a centralized laboratory.

Deadline: Applications for both *in vitro* and *in vivo* concepts will be accepted on a rolling basis.

TANGO2 RESEARCH FOUNDATION

[TANGO2 Research Foundation Grants](#)

The foundation periodically provides research grants to advance the understanding of the disease mechanism and treatment of TANGO2 disorder. Research priorities: Managing and understanding the life-threatening symptoms of TANGO2; Finding ways to avoid metabolic crises and rhabdomyolysis; Improving the quality of life and independence of children and preventing loss of function; Studying cellular response to medications.

Deadline: Applicants should submit a Letter of Intent to be considered for a grant from the foundation.

NIEMANN-PACK RESEARCH FOUNDATION (NPRF)

[NPRF Research Grants](#)

NPRF offers Research Grants to fund new, novel scientific research into Niemann-Pick Disease Type C (NPC). Although NPRF will consider applications from outside the UK on an exceptional basis, it is expected that most successful applications will come from UK-based applicants.

Deadline: The NPRF welcomes applications for grants at any time of the year.

A-T SOCIETY

[Financial Support](#)

The Society supports research into Ataxia-Telangiectasia (A-T) - both direct financial support and that provided by other means (organizing and supporting conferences/meetings, sharing information, administrative support).

Deadline: Anyone considering submitting a grant application can contact A-T Society for an initial discussion.

FANCONI ANEMIA RESEARCH FUND (FARF)

[Research Grants](#)

FARF seeks to fund interdisciplinary and translational research efforts leading to rapid discovery and development of therapies or strategies that treat, control, or cure Fanconi anemia.

Deadline: Investigators are invited to submit a Letter of Intent at any time. Full proposals will be by invite only.

BHD FOUNDATION (BIRT-HOGG-DUBÉ SYNDROME)

[Research Grants](#)

Successful research projects need to meet one or more of the following criteria: i) advanced understanding of the molecular and cellular biology of the Folliculin protein; the clinical manifestation/biology of BHD syndrome and/or the epidemiology of BHD syndrome; ii) maximizing the benefits of current research; iii) working towards technological innovation in therapeutics.

Deadline: Pre-proposals should be sent to the foundation (there are no specific deadlines).

MERCK

[Biopharma Speed Grant](#)

Pre-clinical researchers in the fields of oncology, immuno-oncology, autoimmune disorders, and drug discovery technologies are invited to apply to this fast funding program.

Deadline: If the application is successful, grant funding will be made available within three weeks of the submission. There are no specific deadlines.

DUTCH FSHD FOUNDATION

[Research Grants](#)

The FSHD (FacioScapuloHumeral muscular Dystrophy) Foundation supports solid scientific research into the causes of FSHD, in order to find treatments and develop solutions that help improve patients' quality of life. The FSHD Foundation provides grants for research projects meeting the goals stipulated by the Foundation.

Deadline: Applications may be submitted at any time; there are no deadlines.

A KIDS' BRAIN TUMOR CURE FOUNDATION

[A Kids' Brain Tumor Cure \(AKBTC\) Research Grant](#)

Proposals related to basic and translational projects that can advance understanding of the underlying biology of the development and treatment of PLGA (Pediatric Low Grade Astrocytomas) tumors will be considered. Investigators in the early years of their careers are encouraged to apply.

Deadline: Investigators are invited to submit a Letter of Intent at any time throughout the year.

MERCK SHARP & DOHME CORP. (MSD)

[Merck Investigator Studies Program \(MISP\)](#)

To advance science and improve patient care through the provision of drug/vaccine and/or total/partial funding, by supporting high-quality research that is initiated, designed, implemented, and sponsored by external investigators.

Deadline: No specific deadline; the committee meets regularly.

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Micro-Grants Program](#)

This grant funds high-quality projects which fill immediate gaps in anti-doping knowledge.

Deadline: Requests are accepted year-round and may take as little as one week to approve.

A FOUNDATION BUILDING STRENGTH (AFBS)

[Building Muscle Initiative Research Grant](#)

This grant aims to advance the science of treating Melamine Myopathy, ultimately laying the groundwork for the development of commercially available treatments for these diseases.

Deadline: Send a summary of the concept targets to AFBS prior to applying.

JEFFREY MODELL FOUNDATION

[Specific Defect Research Program](#)

The program supports research to study the mechanisms and presentation of specific defects of the immune system, leading to a better understanding of the conditions and their impact on overall health outcomes.

Deadline: Applications are accepted and reviewed on a rolling basis, so you may apply at any time.

ME RESEARCH UK (MERUK)

[Research Grants](#)

MERUK's priority is novel clinical and biomedical studies that help to unravel the biology of Myalgic Encephalomyelitis (ME)/Chronic Fatigue Syndrome (CFS) and studies that may point towards therapeutic strategies. Applications for pilot

studies or seed-corn projects, including those seeking support for consumables rather than staff costs, are particularly welcome.

Deadline: Researchers can send a summary of their research project on a MERUK application form, allowing MERUK to give an opinion about its suitability and feasibility, without requiring submission of a full application.

REFLEX SYMPATHETIC DYSTROPHY SYNDROME ASSOCIATION (RSDSA)

[Research Grants](#)

RSDSA Research Grants are available to support basic or clinical research relevant to the understanding and/or treatment of Complex Regional Pain Syndrome (CRPS), also known as Reflex Sympathetic Dystrophy and Causalgia. There is an emphasis on funding clinical research.

Deadline: RSDSA welcomes letters of inquiry regarding possible research projects throughout the year.

CHDI FOUNDATION (CURE HUNTINGTON'S DISEASE INITIATIVE)

[Academic Proposals](#)

Proposals should align with the major focus areas of the Foundation, each of which circumscribes a particular aspect of Huntington's disease biology and/or an approach to advancing associated targets, mechanisms and therapeutic candidates: HTT (Huntington gene) Lowering, HTT Structure and Function, Neuronal Dysfunction, Stem Cells and Regenerative Medicine, Unbiased Systems-Based Approaches, and DNA Handling and Repair.

Deadline: To apply for research funding from CHDI, submit a short summary of the proposal.

FANCONI ANEMIA RESEARCH FUND (FARF)

[Research Grants](#)

FARF seeks to fund interdisciplinary and translational research efforts that will lead to rapid discovery and development of therapies or strategies that treat, control or cure Fanconi anemia.

Deadline: Investigators are invited to submit Letter of Intent at any time. Full proposals will be by invite only.

BHD FOUNDATION (BIRT-HOGG-DUBÉ SYNDROME)

[Research Grants](#)

Successful research projects need to meet one or more of the following criteria: i) advanced understanding of the molecular and cellular biology of the Folliculin protein; the clinical manifestation/biology of BHD syndrome and/or the epidemiology of BHD syndrome; ii) maximizing the benefits of current research; iii) working towards technological innovation in therapeutics.

Deadline: Pre-proposals should be sent to the foundation (there are no specific deadlines).

MERCK

[Biopharma Speed Grant](#)

Pre-clinical researchers in the fields of oncology, immuno-oncology, autoimmune disorders and drug discovery technologies are invited to apply to this fast funding program.

Deadline: If the application is successful, grant funding will be made available within three weeks of the submission. There are no specific deadlines.

DUTCH FSHD FOUNDATION

[Research Grants](#)

The FSHD (Facioscapulohumeral muscular dystrophy) Foundation supports solid scientific research into the causes of FSHD, in order to find treatments and develop solutions that help improve patients' quality of life. The FSHD Foundation provides grants for research projects meeting the goals stipulated by the foundation.

Deadline: Applications may be submitted at any time; there are no deadlines.

A KIDS' BRAIN TUMOR CURE FOUNDATION

[A Kids' Brain Tumor Cure \(AKBTC\) Research Grant](#)

Proposals related to basic and translational projects that can advance understanding of the underlying biology of the development and treatment of PLGA (Pediatric Low Grade Astrocytomas) tumors will be considered. Investigators in the early years of their careers are encouraged to apply.

Deadline: Investigators are invited to submit a letter of intent at any time throughout the year.

A-T SOCIETY

[Financial Support](#)

Supports research into Ataxia-Telangiectasia (A-T) including both direct financial support and that provided by other means (organizing and supporting conferences/meetings, sharing information, administrative support).

Deadline: Anyone considering submitting a grant application can contact A-T Society for an initial discussion.

F. HOFFMANN-LA ROCHE LTD - GENENTECH

[Scientific Project Support](#)

Provides funding for general research, translational research, other research or development projects, and/or other initiatives of research organizations, labs and academic institutions. Research projects must focus on several types of cancer, multiple sclerosis, hemophilia, etc.

Deadline: Applications can be submitted anytime during the year (the system will re-open on 2 January 2020).

MERCK SHARP & DOHME CORP. (MSD)

[Merck Investigator Studies Program \(MISP\)](#)

To advance science and improve patient care through the provision of drug/vaccine and/or total/partial funding, by supporting high-quality research that is initiated, designed, implemented and sponsored by external investigators.

Deadline: No specific deadline; the committee meets regularly.

PARTNERSHIP FOR CLEAN COMPETITION (PCC)

[Micro-Grants Program](#)

The PCC Micro-Grants Program was developed to quickly fund high quality projects which fill immediate gaps in anti-doping knowledge.

Deadline: Requests are accepted year-round and may take as little as one week to approve.

A FOUNDATION BUILDING STRENGTH (AFBS)

[Building Muscle Initiative Research Grant](#)

This grant aims to advance the science of treating Nemaline Myopathy, ultimately laying the groundwork for the development of commercially available treatments for these diseases.

Deadline: Send a summary of the concept targets prior to applying so that the grantor can provide early feedback about their current strategic direction.

JEFFREY MODELL FOUNDATION

[Specific Defect Research Program](#)

The program supports research to study the mechanisms and presentation of specific defects of the immune system, leading to a better understanding of the conditions and their impact on overall health outcomes.

Deadline: Applications are accepted and reviewed on a rolling basis, so you may apply at any time.

ME RESEARCH UK (MERUK)

[Research Grants](#)

MERUK's priority is novel clinical and biomedical studies that help to unravel the biology of Myalgic Encephalomyelitis (ME)/Chronic Fatigue Syndrome (CFS), and studies that may point towards therapeutic strategies. Applications for pilot studies or seed-corn projects, including those which seek support for consumables rather than staff costs, are particularly welcome.

Deadline: Researchers can send a summary of their research project on a MERUK application form, allowing MERUK to give an opinion about its suitability and feasibility, without requiring submission of a full application.

REFLEX SYMPATHETIC DYSTROPHY SYNDROME ASSOCIATION (RSDSA)

[Research Grants](#)

RSDSA Research Grants are available to support basic or clinical research relevant to the understanding and/or treatment of Complex Regional Pain Syndrome (CRPS), also known as Reflex Sympathetic Dystrophy and Causalgia. There is an emphasis on funding clinical research.

Deadline: RSDSA welcomes letters of inquiry regarding possible research projects throughout the year

CHDI FOUNDATION (CURE HUNTINGTON'S DISEASE INITIATIVE)

[Academic Proposals](#)

Proposals should align with the major focus areas of the foundation, each of which circumscribes a particular aspect of Huntington disease's biology and/or an approach to advancing associated targets, mechanisms and therapeutic candidates: HTT (Huntington gene) Lowering, HTT Structure and Function, Neuronal Dysfunction, Stem Cells and Regenerative Medicine, Unbiased Systems-Based Approaches and DNA Handling and Repair.

Deadline: CHDI does not have a research proposal submission cycle. If you would like to apply for research funding from CHDI, please submit a short summary of your proposal to CHDI.

DIAMOND BLACKFAN ANEMIA FOUNDATION, INC. (DBAF)

[DBAF Research Grants](#)

DBAF aims to advance research initiatives that promote a better understanding, therapeutic strategies and a cure for Diamond Blackfan Anemia (DBA), a rare bone marrow failure syndrome. DBAF Research Grants are available for research contributing to the development of a clearer understanding of DBA.

Deadline: Grant proposals may be submitted at any time throughout the year.

Grants – ICT, Math, Physics and Engineering

54. AMAZON

[AWS Cloud Credits for Research Program](#)

Aimed at supporting new projects that seek to build a cloud-hosted service, software, or tools; and/or seek to migrate a research process, or open data to the cloud.

Deadline: 31 December 2020, 31 March and 30 June 2021

SIMONS FOUNDATION

[Targeted Grants in Mathematics and Physical Sciences \(MPS\)](#)

The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis.

Deadline: Rolling (no letter of intent deadline)

MOZILLA

[Mozilla Open Source Support \(MOSS\) Awards Program](#)

MOSS awards are available in multiple tracks: Track I Foundational Technology; Tracks II & IV Global Mission Partners; Track III Secure Open Source Fund.

Deadline MOSS applications are accepted on a rolling basis and are reviewed monthly.

THE WATER RESEARCH FOUNDATION(WRF)

[Research Programs](#)

A few programs are offered to provide flexible funding and partnership opportunities to advance water research and innovation. The focus is on applied research and innovative processes and technologies. The programs offered are: Research Priority Program, Unsolicited Research Program and Tailored Collaboration Program. WRF does perform a financial risk assessment on the institution that the Principle Investigator is applying from. As suggested by the focal point at WRF, the potential applicants should engage the Research Program Managers listed on each RFP prior to submission. They will be able to provide specific guidance on each RFP.

Deadline: Most of the next deadlines are set for October 2020. Check the link for a list of open RFPs and their deadlines.

ENVIRONMENTAL RESEARCH & EDUCATION FOUNDATION (EREF)

[Research Grants](#)

A high priority research topic in the area of residential recycling to support the long-term needs and strategic direction of the solid waste field.

Deadline: Two deadlines per year for pre-proposals (1 December, 1 May)

COMCAST

[Innovation Fund](#)

Supports research that is of mutual interest to Comcast and the research community. It also provides funding to support open source software development.

Deadline: Grants are awarded on a rolling basis throughout the year, so applications can be submitted at any time.

SIMONS FOUNDATION

[Targeted Grants in Mathematics and Physical Sciences \(MPS\)](#)

The program is intended to support high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis.

Deadline: Rolling (no Letter of Intent deadline)

Grants – Energy and Environment

EUROPEAN COMMISSION

[Efficient Combination of Concentrated Solar Power and Desalination](#)

Several arid and semi-arid regions of the world are highly dependent on desalination and the demand for desalination is projected to grow. Many of these regions also have an abundant solar resource, which is suitable for the application of Concentrated Solar Power (CSP). Several technical aspects need to be addressed to match the thermal cycle of a CSP plant to the energy needs of a desalination system in an effective way.

Support will be given to demonstrated efficient solutions that couple the thermal cycle of a CSP plant to a water desalination system. The proposals are expected to bring technologies to technological readiness level (TRL) 6 at the end of the project activities.

WAITT FAMILY FOUNDATION

[ROC Small Grants](#)

The Rapid Ocean Conservation (ROC) Grants Program provides small grants with a quick turnaround time for solutions to emerging conservation issues. Grants will fund projects related to the Waitt Foundation mission of supporting sustainable fishing and marine protected areas.

Deadline: The funding cycle is open to new applications. There are no deadlines for applying. Proposals are reviewed monthly on a rolling basis.

Grants – Humanities, Law, and Social Sciences

Global Women Institute

[Global Women Institute: Building GBV Evidence in Refugee and Humanitarian Settings Grant](#)

The Global Women Institute (GWI) is pleased to announce the Building GBV Evidence Grant: a funding opportunity for humanitarian agencies, civil society, women's organizations or universities to implement GBV research and M&E activities in refugee and humanitarian settings.

Deadline: February, 19 2020

Global Grand Challenges

[Smart Farming Innovations for Small-Scale Producers](#)

Smart Farming Innovations for Small-Scale Producers Request for Proposals (RFP) seeks Smart Farming solutions that leverage digital technology innovations that have the potential to drive positive impact for small-scale producer (SSP) entrepreneurs delivered through bundled farmer services and enabled by scalable digital and data platforms

Deadline: February 26, 2020

Grants – Multi-Discipline, Others

INTERNATIONAL CENTRE FOR DIFFRACTION DATA (ICDD)

[Grant-in-Aid](#)

ICDD boasts one of the world's largest software databases, The Powder Diffraction File™, or PDF®, which continues to grow and evolve. ICDD has called on researchers from around the world to contribute their experimental data. In return, ICDD supports their efforts by funds provided through our Grant-in-Aid Program.

Deadline: 31 January, 31 July 2021

LLOYD'S REGISTER FOUNDATION (LRF)

[Digital Innovation Grants](#)

This Digital Innovation call encourages new, engaging ideas for developing the LRF's Heritage & Education Centre's resources using emerging technology. Potential areas of interest include the development of optical character recognition that can accurately capture handwritten text, 3D printing and mapping, data visualization, and augmented reality.

Deadline: 28 February 2021

INNOCENTIVE/WAZOKU

[InnoCentive Challenges](#)

InnoCentive is a global innovation hub, operated by Wazoku, which hosts a range of innovation challenges for the wider benefit of humankind. Different challenges are launched over the year. Disciplines include: Business & Entrepreneurship; Chemistry; Computer/Info; Technology; Engineering/Design; Environment; Food/Agriculture; Life Sciences; Math/Statistics; Physical Sciences; Requests for Partners and Suppliers; Social Innovation. Eligibility conditions might change depending on the call, please check it at the link.

Deadline: Different deadlines; please check at the link.

BAYER AG

[Bayer Partnering in Crop Science \(CS\)](#)

One of the top priorities for the Bayer Crop Science Division is to develop tailored solutions for farmers that are affordable and sustainable for agricultural practice. The aim is to impact the whole food value chain by providing consumers with transparency on the technologies used to produce their food.

Deadline: No submission deadlines. Please apply any time.

FRITZ THYSSEN FOUNDATION

[Research Stipends](#)

This instrument supports highly qualified individual junior scholars that have doctoral degrees in a research project over a limited period. An application can be filed in the following areas of support: History, Language and Culture; The Interdisciplinary Field of “Image–Sound–Language”; State, Economy and Society; Medicine and the Natural Sciences. Funding is reserved for projects that are related to the promotion areas of the foundation and have a clear connection to the German research system.

Deadline: Applications for stipends can be submitted at any time. An answer is generally provided within eight weeks.

IBM

[World Community Grid](#)

Projects in the following disciplines will be run on the World Community Grid: new and existing infectious disease research; natural disasters and hunger; environmental research.

Deadline: Proposals submitted by research organizations will be reviewed on a quarterly basis.

TECHNOLOGY, ENTERTAINMENT, DESIGN (TED)

[The Audacious Project](#)

Every year, the Audacious Project works with proven change-makers to bring to the fore their best, boldest ideas for tackling global problems. The big ideas that are part of The Audacious Project vary widely - from global health to ocean exploration to social justice to education.

Deadline: Submissions are reviewed on a rolling basis and the link will stay open all year.

Prizes and Awards

THRASHER RESEARCH FUND

[E.W. "Al" Thrasher Awards](#)

The purpose of the E.W. "Al" Thrasher Awards is to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years.

Deadline: Concept Paper Submission on a rolling basis. The fund awards grants twice a year.

WELLCOME TRUST

[Innovator Awards](#)

These awards support researchers who are transforming great ideas into healthcare innovations that could have a significant impact on human health.

Deadline: Researchers can apply online at any time. Shortlisting meetings are held every three months.

Fellowships/Scholarships

FRAGILE X SYNDROME RESEARCH FOUNDATION (FRAXA)

[FRAXA Fellowships](#)

Research needs to focus on new and improved treatments — and ultimately a cure — for Fragile X syndrome, with an emphasis on disease-modifying therapeutics based on understanding of Fragile X disease mechanisms. Successful applicants will likely be working in established labs which have funding for supplies and any required animal handling costs. Applicants proposing to work with a particular Fragile X model (KO mouse, drosophila, neural stem cells, etc.), should demonstrate that this model system has already been established in-house.

Deadline: 1 February each year (11:59 pm EST). A brief Letter of Intent to the focal point at FRAXA is essential for all applications.

FRIEDREICH'S ATAXIA RESEARCH ALLIANCE (FARA)

[Postdoctoral Fellowship](#)

FARA offers a Postdoctoral Fellowship. All proposed research must fall within FARA's Grant Program Priorities.

Deadline: 1 February, 15 July 2021

BOEHRINGER INGELHEIM FOUNDATION

[PhD Fellowships](#)

Addressed to outstanding junior scientists who wish to pursue an ambitious PhD project of approximately three years in basic biomedical research in an internationally leading laboratory. Further eligibility criteria in the link.

Deadline: 1 February, 1 June, 1 October of each year.

NCL FOUNDATION

[NCL Research Award](#)

In order to find a cure for Juvenile Neuronal Ceroid Lipofuscinosis, scientists from all over the world are encouraged to submit their projects, especially those from related fields like Alzheimer's, ageing and lysosomal storage diseases.

Deadline: Letters of intent can be submitted anytime (follow the instruction for the pre-application as indicated at the link).

Travel/Conferences

MUSCULAR DYSTROPHY ASSOCIATION (MDA)

[Conference Grants](#)

MDA supports conferences, meetings and workshops that facilitate the exchange of scientific ideas and crucial information relevant to diseases covered under the MDA umbrella.

Deadline: Conference grants are accepted on a rolling basis throughout the calendar year. Applications must be submitted at least three months in advance of the meeting.

JUVENILE DIABETES RESEARCH FOUNDATION (JDRF)

[Conference Grant](#)

Proposals for the support of scientific meetings, conferences and workshops relevant to the JDRF mission.

Deadline: Applications for conference support are reviewed on a quarterly basis. Applications are due the quarter prior to the meeting/workshop.

PARKINSON'S FOUNDATION

[Conference Awards](#)

This award supports the gathering of experts in the field working to address unsolved clinical or basic science problems relevant to Parkinson's disease.

Deadline: The application period is open year-round. Applications are accepted anytime but must be submitted at least 90 days prior to the proposed conference start date.

CHILDREN WITH CANCER UK

[Grants for the Support of Conferences and Meetings](#)

This financial support is for events taking place both in the UK and overseas. Events taking place overseas must be international in nature and include collaborators from within the UK (although the organizers may be outside the UK).

Deadline: This funding stream is open throughout the year. Applications where the proposed meeting is less than three months from the submission date will not be accepted.

Research and Grant Training Resources

ELSEVIER RESEARCHER ACADEMY

[Successful research grant applications – getting it right](#)

In this interactive module, we highlight points to keep in mind when preparing your application. We explain how to evaluate your idea and what to consider when identifying grant opportunities. We help you understand what funding bodies look for and share useful tips on preparing your application.

Deadline: The course is self-paced online, and there is no deadline

YALI

[Fundamentals of Grant Writing](#)

This course reviews the basic steps in drafting a grant proposal for funding, including planning, researching and writing a grant as well as best practices for following up with potential funders. The course outlines the different types of funders, what a grant seeker should consider when developing a project idea and how it could be funded, understanding how a proposal will be reviewed and the financial concerns of funders, what typical elements are included in a grant proposal, and managing the relationship with a funder, whether the proposal was successful or rejected.

Deadline: The course is self-paced online, and there is no deadline

FUTURE LEARN

[Discovering Your PhD Potential: Writing a Research Proposal](#)

This online course will give you the awareness, skills and tools to write a well thought-out and achievable research proposal, helping you improve the quality of your postgraduate applications. It will also give you a taste of the self-study required in postgraduate doctoral research. The course focuses on Social Sciences, Arts and Humanities, but much of the content is relevant to all disciplines.

Deadline: The course is self-paced online, and there is no deadline
