8. ABUAD MULTI-SYSTEM HOSPITAL:

To complement its Medical Training Programme, ABUAD built an ultra-modern 400-bed Multi-system Hospital which was commissioned on October 20, 2017. The Hospital is populated with the most modern and sophisticated medical equipment and employed the best of hands that have made it the Hospital of first choice in Africa. This has stood it out as a clear leader and the toast of its peers in Africa

No wonder, Dr. Yemi Johnson, the Chief Medical Director of First Cardiology Consultants, Lagos, had this to say about the Hospital: "**This is my first visit to Ekiti and the ABUAD Hospital was my first stop. This is really impressive. I can say without any equivocation that this hospital has more high-tech medical equipment than all the hospitals in Lagos put together. This is most certainly the best equipped hospital in Sub-Saharan Africa**".

One amazing thing about the Multi-system Hospital is that despite the fact that it is equipped with state-of-the-art medical equipment, the rates are much lower than what people think.

There is a Ministry of Aviation-certified Helipad right on the University campus, with which patients could be conveniently ferried from any part of the country to the Hospital.

9. ABUAD INDUSTRIAL RESEARCH PARK

As an innovative University that set out to make a difference, Afe Babalola University conceptualized the establishment of a 121-unit of industries in the Industrial Research Park, an amalgamation of industry with university to promote Innovation, research, industrial development, employment and generate income for the industry, university community, the State and the Federal Government.

On January 25, 2018, the revered Ooni of Ife, His Imperial Majesty, Oba Adeyeye Enitan Ogunwusi, Ojaja II, turned the sod of the Industrial Park. This singular event marked the beginning of Industrial Revolution in Nigeria.

The first phase of the 121-unit Industrial Research Park took off on Monday, June 21, 2021 with the commissioning of the University's Independent Power Plant (IPP) and the foundation laying of nine other industries within the Industrial Park Complex with seven (7) at completion stage.

10. ENROLLMENT:

The University's enrollment has grown from 240 students in January 2009/2010 Academic Session to 8,500 students in September 2021/2022 Academic Session having graduated nine (9) sets of students between 2013 and 2021

11. Robust Parents/Teachers Consultative Forum.

12. **There is freedom of Religion in ABUAD.** However, wearing of Religion is not allowed.

13. **Security:** Unapparelled Security Apparatus and full complements of Security Forces are put in place to beef up ABUAD's Security System.

UNDERGRADUATE PROGRAMMES

PART A

(1) COLLEGE OF MEDICINE & HEALTH SCIENCES

(i) INTERCALATED DEGREE/MEDICINE & SURGERY (MBBS) (7) YEARS

ABUAD, renowned for uninterrupted Academic Calendar, qualitative and functional education, has decided to further enhance the Academic and professional quality of ABUAD-trained Medical Doctors by introducing Intercalated Degree Programme for ABUAD Medical students beginning from 2022/2023 Academic Session.

MBBS students, instead of spending six (6) years, will spend additional one year and obtain a Bachelor's Degree in any of the following areas: **Human Anatomy, Human Physiology, Biochemistry and Pharmacology.**

The Intercalated Programme will afford the students the opportunity of having an Academic career progression leading to their becoming Professors in addition to becoming Consultants. This is the practice in top Medical Colleges in advanced countries of the world and it is also captured in NUC Policy.

ABUAD Medical students currently in 300 Level and who wish to take advantage of the Intercalated Degree Programme will write the Bachelor of Science Degree Examination in their chosen field when they are in 400 Level. They will thereafter proceed to complete their Medical Programme.

All 100 Level candidates will be admitted to pre-Medicine.

After one year, successful candidates will be admitted into MBBS at 200 Level through a competitive process.

They will continue in MBBS programme up to 300 Level.

After completing 300 Level, they will spend one year to obtain a Bachelors Degree in their chosen course.

They will return to MBBS Programme at 400 Level and continue their clinical training.

By reason of this new development, ABUAD Medical students will graduate with B. Sc. in any of the chosen fields i.e Human Anatomy, Human Physiology, Biochemistry and Pharmacology.
